

„Mikro House”

Have you been dreaming of a small, inexpensive, yet warm and functional house? Mikro House may be the house for you. It is the smallest of the eco houses we have on offer with a building area of just 18 m² (3 m × 6 m). This space accommodates a living room with a kitchenette and a bathroom. This wooden house is energyefficient, modern and ecological – suitable for use all year round!

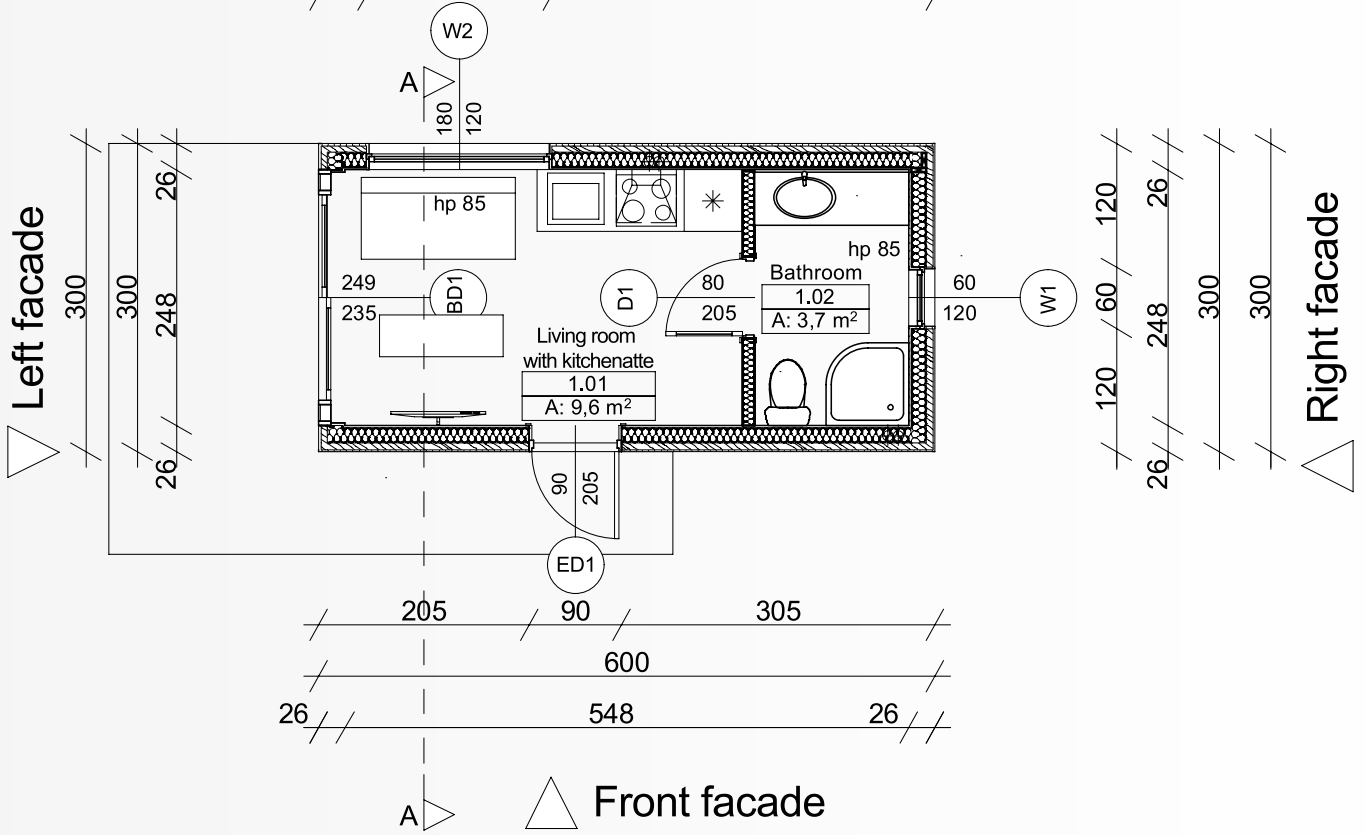

📐 Building area - 18 m²

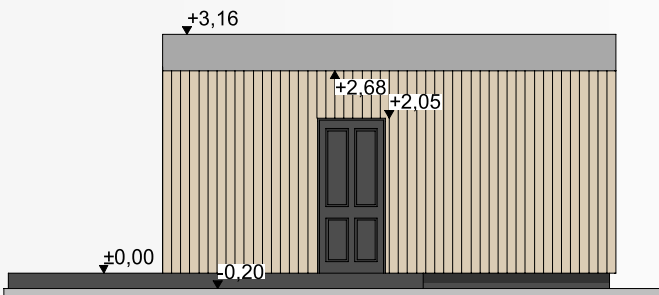

🏠 Usable area - 13,3 m²
