

„Mikro House XL”

The Mikro House XL is a functional, year-round, eco-friendly modular house consisting of two elements (containers), each 18 m² in size. Put together in an L-shape, they do not take up much space on the plot, while creating a comfortable living space. A living room with a kitchen, a bedroom and a bathroom is all you need? You can have it at a low cost if you choose the Mikro House XL project.

📏 Building area - 35 m²

🏠 Usable area - 27,6 m²
